Junior Software Engineer

As a Software Engineer with expertise in Frontend Development, I am passionate about solving coding problems and have a strong interest in Linux. Additionally, I have a solid grasp of web development principles, including HTML, CSS, and JavaScript, and I am dedicated to continuously improving my skills by learning new technologies and techniques.

Experience

- **CV. Toel Jam Sholat Digital** Jul 2019 - Aug 2021
Programming Arduino/ESP
Programming a digital clock using arduino IDE & ESP
- **PT. Aarti Jaya Velvet Industri Indonesia** Aug 2022 - Present
Staff Purchasing
Managed procurement, negotiated with vendors, and ensured availability and quality of goods
- **PT. Presentologics (Dicoding)** Aug 2023 - Jan 2024
Magang & Studi Independen Bersertifikat (MSIB)
Learning Frontend & Backend Development

Education

- **SMK NEGERI 7 BALEENDAH** Jun 2016 - Jul 2019
High School in Electrical Engineering
- **Universitas Islam Nusantara** Sep 2021 - Present
Bachelor(S1) Informatics Engineering
IPK 3.52/4.00

Skills

- Hard Skills : HTML5, CSS3, Javascript, Tailwind CSS, Bootstrap, GIT/GITHUB, ReactJS(Basic), MySQL, NodeJS, ExpressJS(Basic), Internet of Things(IoT)
- Soft Skills : Problem Solving, Time Management, Analytical Skills, Adaptability, Independence, Teamwork, Professional Ethics

Certificate

- **Frontend Development**
<https://www.dicoding.com/certificates/1RXY10KN1PVM>
- **Backend Development**
<https://www.dicoding.com/certificates/KEXLLW13MXG2>
- **Javascript**
<https://www.dicoding.com/certificates/81P239R0NXOY>
- **Version Control System (Git)**
<https://www.dicoding.com/certificates/1OP80G3J8XQK>
- **Basic Networking**
<https://www.dicoding.com/certificates/MRZMQN6GNPYQ>
- **Internet of Things (IoT)**
